

Corporate Partners

Corporate partners help Recycling Lives to assist the local community & stimulate economic growth.

Sustaining charity through metal and waste recycling

Recycling Lives Corporate Partners

Working together to make a real difference.

Shared achievement is best

Recycling Lives is a market leader, with over 40 years experience of offering innovative and integrated waste management solutions.

Our services include:

- Metal recycling
- CRT recycling
- Vehicle recycling
- WEEE recycling
- Waste management
- Manufacturing
- Carbon reduction
- Training and education
- Industrial clearance
- Bulky waste
- Business Incubators
- Conference facilities

Working with Recycling Lives diverts up to 94% of your waste from landfill, reduces your carbon footprint and enhances your Corporate Social Responsibility agenda.

How can you get involved?

There are so many ways to get involved with Recycling Lives. Your support helps us to offer people facing an uncertain future the opportunity to change their lives for the better.

Recycling Lives is a unique charity, sustained by the waste management contracts awarded to our commercial enterprise. Companies who work with Recycling Lives in this way actively strengthen their CSR agenda and demonstrate that they are giving something back to their local community.

There are many benefits of strengthening your CSR agenda by working with Recycling Lives. You can:

- Win new customers
- Improve existing customer loyalty
- Enhance your reputation and gain your customers' trust
- Maintain and enhance stakeholder relationships
- Achieve cost and efficiency savings
- Improve the environment and reduce your carbon footprint
- Gain a competitive advantage
- Attract, retain and develop motivated and committed employees
- Build the local community and stimulate economic growth

- Know that your commitment to Recycling Lives is providing invaluable opportunities to disadvantaged individuals

By working with Recycling Lives, your company is actively sustaining the Recycling Lives charity and creating life-changing opportunities for members of the local community.

By working together, we can:

- Reduce homelessness, worklessness and welfare dependency
- Create a stronger local economy, with more sustainable businesses
- Provide education and training services to the wider community and reduce educational disadvantage
- Create new products from recycle and reduce the need for newly manufactured goods
- Create green jobs
- Instill a life-long learning culture within the community

According to the Edelman good purpose study.

88%

of consumers said they were likely to buy from companies that support activities to improve society.
