Sustaining charity through metal and waste recycling

# Waste Electronic & Electrical Equipment

Recycling Lives has over 40 years' experience in the recycling industry. We provide a complete WEEE recycling solution.

## Your responsibility

**The 2006 UK WEEE regulations place a legal requirement on anyone who produces, handles or disposes of electrical or electronic equipment. The UK produces around one million tonnes of WEEE every year.**

This legislation aims to reduce the amount of WEEE going to landfill and ensure it is handled in an environmentally conscious manner.

### Producers

Anyone who manufactures, re-brands or imports electrical or electronic equipment must pay for its collection and treatment once it has reached the end of its life.

### Distributors

Distributors must set up a 'take back' system, allowing customers to dispose of their waste electronic and electrical equipment free of charge. These products must then be disposed of responsibly.

### Business end users

Business end users must fulfil the requirements of the Duty of Care Act and Hazardous Waste Regulations. This relates to the handling, disposal and documentation of the WEEE.

Failure to comply with the WEEE regulations may result in fines or prosecution. Act now to ensure this doesn't happen to your business.

### Our solution

Our specialist team will evaluate your needs and provide a complete WEEE recycling solution to meet your legal requirements.

### Why choose us?

- WEEE industry leader
- Over 40 years' experience in the recycling industry
- Complete solution, handling all types of WEEE
- Large or small contracts on a one-off, 'as needed' or regular basis
- WEEE handled in accordance with legislation and best practice
- One of the few approved Authorised Treatment Facilities in the North West, enabling us to provide evidence notes as required by WEEE regulations
- Large range of transport solutions, including skip hire, container hire and logistics

Recycling Lives' WEEE solutions ensure that you are **fully compliant** with all legislation. We help you to control your costs, reduce the amount of waste you send to landfill, cut your carbon footprint and enhance your Corporate Social Responsibility.
